**Easy To Use Bedding Accessories That Will Make Your Holidays Pain Free**

*The Bed MadeEZ Bed Maker and The Easy King Bed Doubler Are Your Simple Solutions To A Stress Free/Pain Free Holiday Season*

**West Palm Beach, FL October 2018** – As the holidays are fast approaching, it’s never too late to prepare for your guests and CKI Solutions offers helpful accessories to do just that.

When your guests need a place to stay, they do not need to sleep in twin beds. The Easy King Bed Doubler quickly and safely combines two twin mattresses into one seamless king size bed. It is a simple solution for creating a big bed on a budget. The Easy King fits regular and extra long twins. It even works on trundle sets! It has received outstanding reviews on Amazon and has a 5-year replacement warranty against defects.

The Bed MadeEZ makes changing sheets a breeze. The next time you need to change your sheets, use this tool and you will have a well dressed bed in minutes without ever lifting a mattress. When you use the Bed MadeEZ, it simply slides in between the mattress and box spring and lifts and holds the mattress up to 4 inches to easily apply or remove sheets. It can also be used to quickly tuck in sheets, and with 2 tools, applying or removing a bed skirt has never been easier. Originally designed for hotel housekeepers, the inventor and owner of CKI Solutions, Sam Montross, said “why should hotel staff be the only ones benefiting from this helpful tool? Homeowners need it too.” The kit has many 5 star reviews on Amazon and has a lifetime replacement warranty.
